

TRANSCULTURAL PSYCHIATRIC OUTPATIENT SERVICE

We provide advice and care to people of migrant background in their native language

- You reside in the regions of Mainz-Bingen, Alzey-Worms or Bad Kreuznach.
- You have experienced trauma in your homeland or on your way to escape.
- You are in a difficult situation in life in a country (still) foreign to you.
- You cannot communicate well but you need psychiatric help.
- You are not aware what possibilities there are for our health care system to support you.

We would like to really understand you

We are working with experienced interpreters or have members of our staff who can speak

- English
- Russian
- Farsi

What should you bring with you?

- Health insurance card
- Preferably a referral from a Specialist
- Statement from a Social Support Office for covering the cost

We can do the following for you

- Information and Consultation
- Diagnostics
- Clearing appointments for preparation of further therapy interventions
- Renewal of a therapy that had already started in your homeland (in the case of Schizophrenia, for instance)
- Medications' treatment, including issue of prescriptions

We are multi-professional

Our team comprises doctors, medical care staff, social workers, psychologists and psychotherapists. We have long standing experience in working with people with psychological conditions as well as their families.

Our service is confidential

You are safe with us. Your contact with us is treated with strict confidentiality. We follow the provisions of the law for doctor-patient confidentiality.
